

## SCRUBBER DRYER

M 3

The **M3** is a small **RIDE-ON SCRUBBER-DRYER** with ultimate manageability and maneuverability. This product is designed to be used in small/medium sized factories, shopping centres, hospitals, schools and other public establishments rendering the cleaning process much more comfortable for the operator in comparison to a walk behind scrubber.

It is highly ergonomic for any operator and easy to use thanks to an intuitive, well grouped and easily accessible control panel. The machine is equipped with a series of expedients and modern functions such as the detergent dosing system and the solution flow rate self-regulation which is dependent on the machine speed, thus offering a considerable saving of both cleaning time and costs.

Additional features of the M3 are: the extreme autonomy provided, thanks to considerable battery capacity; an easy to clean recovery tank, thanks to the large opening; and lastly, the automatic parking brake. Given the extremely low noise production of the machine, it is suitable to be used in any environment.

# M 3

- Fully openable battery compartment for servicing components and filling detergent can.
- Functional cockpit with talker display: water, detergent, speed adjustment and safety push-button.
- Ergonomically designed driver's position with good sized seat and backrest.
- Recycle tank fully opens for complete sanitizing.
- Tank easily and conveniently filled with water.

## CHARACTERISTICS

Model		<b>M3</b>
Wash track	mm	560
Floor scrubber width	mm	710
Theoretic operating capacity	m <sup>2</sup> /h	3300
Power supply	V	24
Total power	W	1300
Tank capacities (Clean/Dirty)	l	60/70
Noise level	dB(A)	<70

## BRUSHES

Diameter/Quantity	mm/n.	560/1
Motor: Quantity/Power	n./W	1/450
Brush rpm	rpm	140
Load on brushes	kg	34

## DRIVE TRAIN

Motor: Quantity/Power	n./W	1/350
Maximum speed	km/h	6
Climable gradient	%	8

## SUCTION

Motor: Quantity/Power	n./W	1/500
Air flow rate	l/sec	30
Aspiration vacuum	kPa	16

## TANKS

Tank capacities (Clean/Dirty)	l	60/70
-------------------------------	---	-------

## BATTERIES

Capacity (4x6V Lead/Acid)	Ah(C5)	180
Capacity (4x6V AGM)	Ah(C5)	190
Operating autonomy	h	3,5

## DIMENSIONS

Length/Width/Height (without floor scrubber)	cm	125x630x122
--	----	-------------

## WEIGHTS

Without batteries	kg	185
180 Ah batteries (C5) (lead/acid)	kg	116
190 Ah batteries (C5) (AGM)	kg	130

## NOISE LEVEL

Noise level	dB(A)	<75
-------------	-------	-----
